# STOCK DEALINGS EXTREMELY DULL

Little Business Is Done Throughout Day's Short Session.

#### WEEK'S DEVELOPMENTS

Most Important of All Was Spe-

cial Master's Report on Railroad Rates.

(Special to The Times-Dispatch.]
New York, September 24.—Stocks
Nere extremely dull throughout the
short session to-day, Net changes were
of no importance. Reading and interbrough-Metropolitan continued to be
the strongest features.

the strongest features.

Although the bank statement showed a decrease in surplus reserves of \$4.635,500 in the average statement and of \$3.358,475 in the statement of business at the close of Thursday, the street was pleased, for the loss of cash was smaller than had been expected.

stocks showed a tendency to advance most of the week, because, fundamentally, of the large short interest in the standard issues. It needed but a few favorable announcements to drive the shorts to cover. These came about the middle of the week, and the advance was sharp, but it quickly flattened out.

vance was sharp, but it quickly flattened out.

Most important of the week's developments was announced by the special master of the United States Court at St. Paul that the Minnesota laws of four years ago regulating freight rates were confiscatory. The master, who is a former judge, also announced a physical valuation of the Great Northern and Northern Pacific far in excess of the capitalization of those roads. The fast that Northern Pacific and Great Northern advanced 4 points on this proves how important it was considered in a market that has been fluctuating fractionally.

Chills Enthusiasm.

On the advance saused by the Min-

On the advance saused by the Minmarket in such volume as to chill all
bullish enthusiasm. Two other developments at the end of the week
contributed to the growth of pessimism
again. The first was the conference
held at the Waldorf-Astoria by representatives of the steel trust and independent companies. This meeting
was looked upon as an attempt to control the steel business on the part of
the trust

The offstel associated by the Minmercantile paper, 5.1-2 to 61-2 per

was looked upon as an attempt to control the steel business on the part of the trust. The official announcement that the conference was sought by the independents failed to change the belief that it was an unwise meeting, since it gives an excuse to political enemies of the trust to say that there is an understanding among the steel producers. The other depressing influence was the statement by Interstate Commerce Commissioner Lane that he is opposed to a freight advance.

Metal stocks did not snare in the strength of the week, because of a weakening in the price of copper metal, quotations being reduced under 13 cents a pound late in the week. The Chino and Ray Consolidated Companies announced that the American Smelting Company would handle their production. Utah Copper stated it had reduced its production in accordance with the agreement made in Europe to curtail 15 per cent. Another piece of mining news of interest was the announcement of the Nipissing Company that it had added \$950,000 to its cash surplus between June 29 and September 17.

Cheering Influence.

Weakness of grain was held as a cheering influence, Corn broke to 50 3-4 cents, the lowest price for two years. Practically all of the crop is now out of danger of frost, and a yield of about 3,000,000,000 bushels as accepted as assured.

A banker identified with the American Sanker identified with the American and the surpless that the control of the crop is now out of danger of frost, and a yield of about 3,000,000,000 bushels as accepted as assured.

of anger of frost, and a yield of about sured.

A banker identified with the American Beet Sugar Company went on record as saying that "in all human probability." beet sugar common stock would pay a dividend before the end of the current fiscal year. The last fiscal year showed earnings of more than 7 per cent on the common stock, according to the official report, and current earnings are even larger. The dividend on American Mait preferred was reduced.

Jersey Central's report for the year showed that before setting aside anything for improvements it earned more than 33 per cent, on the stock. This caused something of a boom in Reading, which controls Jersey Central, It was also said that directors of Reading were planning a distribution of assets. This report was not generally believed because the United States Circuit Court at Philadelphia will hand down a decision soon defining rights of the coal roads in the ownership of other railroads and mining properties.

New York, September 24.—Money on rall, nominal; time loans, steady: sixty days, 33-4, and ninety days, 4@41-4;

On the Curb.

Chino Copper touched a new high record of 19 on the New York Curb market to-day, because of aggressive buying early in the session. This was steady at a net advance of 16 points on September and of 224 points on later months. The market opened steady at a decline of 261 points, owing to lower cables the confirmation of recession from the high figure of the cord proposed and caused a fractional recession from the high figure seeling here during the early trading the results of the confirmation of the c buying early in the session. This was lal-4 points above the closing price on Friday. At the high price, profittaking developed and caused a fractional recession from the high figure. Other coppers were steady in sympathy. No other changes of importance were recorded in the list, trading being very dull throughout the short session. In the Street.

Number of shares of stocks sold today, 11.591 shares; a year ago—holiday.

Par value of bonds sold today, \$1.14,000; a year ago—holiday.

The number of idle freight cars decreased 1.479 in the two weeks ended september 14. according to the report of the American Railway Association. There were \$4,890 die cars on side-tracks on that aate. At the same time there was a shortage of 7.814, a decrease of 1.479. Therefore, the net surplus of idle cars was 47,076.

"Big Four" declayed the usual quarterly dividend of 11-4 per cont. on its preferred stock, payable October 20.

Total imports of dry goods and merchandise last week amounted to \$15.736,803, compared with \$13,759,410 the previous week, and \$17,527,182 for the corresponding week of last year.

W. K. Wingham, of London, has been pletted a director of the Scabbard Air Line Railway, to succeed C. Sidney Shepard. Mr. Shepard's place on the executive committee has been filled by N. S. Meldrum.

At the request of its directors, the standard Cordage Company, a New York corporation, with capital of \$5.64,588 in stock and bonds, has been pletted a director of the Scabbard Air Line Railway, to succeed C. Sidney Shepard. Mr. Shepard's place on the executive committee has been filled by N. S. Meldrum.

to the Continent, 176,856 bales; to Japan, 1,254 bales.

New Orleans, La, September 24.—Cotton—Spot cotton quiet and steady, 4:16c, off: middling, 18%c. Sales on the spot 35 bales and 110 to arrive. Cotton futures opened steady at a decline of 227 points on unfavable cables. English futures were lower than expected by 263 points. This hastened week-end selling out by longs on the first call, but the pressure to sell did not last long, and soon after the call a partial recovery was made. Private cable messages explained the slump in Liverpool by staining that it was smerely the result of the putting out hedges against heavy imports of actual cotton, and his was influential in the recovery. The market was very steady around the middle of the morning on the announcement by freight brokers that an enormous expert movement during October was in sight. It was said by one of the largest ocean freight brokers in this port that the congestion in Galveston was getting so bad that one of the rallroads having a terminus in that one of the rallroads having a terminus in that port had asked him for rates tor October sailing out of Galveston has been provided for cotton stimulated the market, and the trading months were put 244 points over yesterday's last quotations. The market closed steady at a net advance of 12 points. Close: September, 13.25; October, 13.25; May, 12.40.

### Executor

Trustee

# Virginia Trust Company

Virginia's Oldest and Strongest Trust Company

Cash Capital, \$1,000,000.00

Readers of Trust Company journals during the past three months have been impressed with an unprecedented increase in the number of Trust Company appointments as Executor, Trustee and Guardian under the terms of wills made by men of wealth and large affairs.

Where desired, this Company will assist, through its counsel, in the difficult task of drawing a will, when named as Executor or Trustee. Interviews and correspondence, which are always confidential, are invited.

This company does not handle commercial business, but solicits inactive accounts from individuals, firms and corporations, upon which 3 per cent. interest is allowed on daily balances, and where the balance amounts to \$500.00 or more, the interest is credited at end of each month.

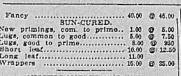

H. W. JACKSON, President.

L. D. AYLETT, Secretary.

JAS. N. BOYD, Vice-President. JNO. M. MILLER, Jr., Vice-President. JNO. H. SOUTHALL, Treasurer.

equipped with a transparent substance in the resembled glass, but yet was not glass.

Mr. Miller explained that in his do the shell used there when from fright or other cause it saw proper to pull its head in from the outer world. All the way around the lower edges of the shell were other small anguer shaped windows, though larger than those at the top, and these were of the same curious transparent substance. Mr. Miller is of the opinion that these lower "windows" were also of use to his turtleship when it had retired from the outer world temporarily. Or even for a winter season. Just how the beast could manage to get his eyes down to the lower line of windows Mr. Miller did not attempt to explain, but he had no doubt it could be done and had been done, in some mysterious way. Altogether this turtle, before it got into Captain Hundley's soup pot, might have been dubbed a natural submarine observation boat. Captain Hundley had no explainations to make and no lecture to deliver on this new brand of Virginia turtle except to assure Mr. Miller that it made the finest turtle soup he had ever smacked his lips over, and Polk Miller is authority for the statement that Captain Hundley has tested soups all along the South Atlantic coset from Virginia to The Gulf of Moriae.
